

THE WEATHER
Forecast for Ohio—Unsettled weather tonight and tomorrow; probably local thunderstorms; little change in temperature.

MEXICO REJECTS PLEDGES
DEMANDED BY AMERICA

SAYS POLITICAL
SIDE CONTRARY
TO GOVERNMENT

American Note Has Two
Distinct Aspects To
Meet

WANTS RECOGNITION
Commercial Demands Satisfactory With
Changes

Mexico City, June 9.—The latest note from Washington regarding Mexico-American relations and the conditions for the recognition of the Mexican government contains commercial requirements which could be accepted in modified form, but the political pledges could not be met in full under the present Mexican constitution, it was declared at the foreign office today.

According to the foreign office, the American note has two distinct aspects—one commercial and the other political. The commercial conditions, it was said, "could be accepted with modifications if reciprocal guarantees were given for Mexican workers in the United States similar to those American workers would enjoy in Mexico."

The political requirements, it was declared, were unacceptable, because they are contrary to the constitution. Article 15 of the constitution prohibits treaties which would change the guarantees and rights of citizens. Foreign office officials said that they believe that the mutual benefits from a treaty of amity and commerce between the United States and Mexico would be extensive.

Memorandum Sent.
Before the American state department sent the note, a memorandum was sent through a personal friend of President Harding, suggesting a conference between Mexican and American envoys, it was stated. Mexico, however, replied that she could not accept the proposal "before the Mexican government was recognized, as Mexico is not a new country, but has been recognized as a world power for one hundred years."

Later, a note was received by George T. Summerlin, the American charge, on the subject.

The United States proposed, that if a conference of Mexican and United States envoys be held, commercial and political matters including recognition of Mexico by Washington be treated simultaneously. Mexico objects, wishing recognition treated as separate and distinct from the other issues involved. The foreign office believes that the friendly interchange of communications will continue, and that no serious obstacle will arise, despite the refusal of Mexico to modify article 27 of the constitution to which objection has been made.

President Obregon who is giving his personal attention to the interchange of notes with Washington declared that the international policy of Mexico "has been clearly defined" and that his own views are too well known to require further explanation.

Mexican officials added "that the whole world knows that friendship and harmony exist between Mexico and the United States and that the only thing now lacking is formal diplomatic intercourse."

LOCAL COURT TO
CERTIFY RECORD

Columbus, O., June 9.—A motion was filed today in the state supreme court for an order directing the Greene county appellate court to certify its record in the case of George A. Newhall et al. versus the R. A. Kelly Company.

The case involved a contract between the two parties that existed during the war, by which the plaintiff was to furnish the local company with Manila. A decision in favor of the R. A. Kelly Company was rendered in Common Pleas Court here and that decision upheld in the Court of Appeals. The plaintiff now seeks to carry the case to the State Supreme Court.

TRACTION HEAD NAMED
Indianapolis, Ind., June 9.—Robert L. Todd, was re-elected President of the Indianapolis Street Railway Company and of the Terre Haute, Indianapolis and Eastern Traction company today.

JAPANESE OCCUPATION OF EASTERN
SIBERIA EXTENDED; MOSCOW PROTESTS

London, June 9.—Japan's occupation of Eastern Siberia has been extended according to the following Central News dispatch from Helsinki today:

"General Kumera, commanding the Japanese at Vladivostok has issued a statement showing that in consequence of the developments in Siberia, the Japanese are obliged to occupy towns of strategic importance."

"The Moscow soviet has forwarded a strong protest to the British and French governments, declaring that the allies are morally responsible for Japan's intervention."

A. D. LASKER
TO HEAD BOARD

A. D. Lasker of Chicago, who has accepted the chairmanship of the U. S. Shipping board according to reports from Washington. Mr. Lasker came into national politics during the presidential campaign. Mr. Lasker is a stockholder in the Chicago National League Baseball Club and President of Lord & Thomas advertising agents.

ADMIRAL SIMS
WILL NOT DENY
LONDON SPEECH

Declares He Will Stand
By Every Word He
Said.

London, June 9.—Rear Admiral William S. Sims, U. S. N., who has been asked by Secretary of the Navy Denby at Washington to report by cable immediately whether he was correctly quoted in his sensational "jackass" speech Tuesday, when he made remarks about the Sinn Fein and Irish Americans "will neither retract nor repudiate" according to an interview with the American naval officer printed in the Westminster Gazette today.

"I shall stand by every word I said," declared Admiral Sims in the interview. "I shall not repudiate a word of it. I see nothing un-American in what I said even if Senator Medill McCormick does. Up to the present time I have not received the cablegram which Secretary of the Navy Denby was reported to have sent to me. If I receive it I shall reply to it in the above words."

According to Washington advices, the cablegram from Secretary Denby demanding an explanation of the speech was sent Wednesday.

This was the second time that Admiral Sims has been questioned regarding utterances made publicly in London. The latest speech was made before the English speaking union. The American admiral charged that the blood of English and American boys was on the hands of the Sinn Fein for their anti-allied policy during the war. Later he warned the English not to pay any attention to resolutions of sympathy in the United States, saying a lot of "jackasses" were responsible for them. The speech was publicly questioned in the American senate by Senator McCormick, which explains Admiral Sims' reference to Mr. McCormick in his interview.

ANOTHER VESSEL
HIT BY ICEBERG

New York, June 9.—"S. O. S., S. O. S.," have hit iceberg. Bow completely stove in. Condition serious. Send immediate assistance.

This call from a vessel in distress in the ice fields—the second within 24 hours—was received today by the Naval communication radio station at Otter Cliffs, Me. It came from the Charlotte 2,179 ton United States shipping board vessel, with a crew of 37 and a cargo of grain for London and Hamburg.

REPORT THEFT OF
TWO BICYCLES

The theft of two bicycles has been reported to Police.

Frederick Schell, 501 North Gallows Street, reported to the Police that his bicycle had been stolen from his home some time Monday night.

Eugene Doggett, Jamestown pike, reported that he left his bicycle in front of Babb hardware store Tuesday afternoon for a few minutes and when he returned it was gone. The bicycle was later recovered by Police at the Famous Auto Supply store on West Main street, where a boy had attempted to sell it. Police are searching for the boy.

CHILD OF ELEVEN FACES SECOND
TRIAL FOR MURDER IN INDIANA

After a twenty-four hour debate over the fate of eleven-year-old Cecil Burkett, charged with the murder of his playmate, Benny Slavin, at Knox, Indiana, twelve weary jurors met Judge Pentecost that an agreement of a verdict would be impossible and they were

ARMED MAN SHOOTS TWO-HOLDS
HOUSE AGAINST POLICE SQUAD

Toledo, O., June 9.—Three men dead was the casualty list in the "battle of Walnut street," fought for hours between the police and Thomas Kelly, 48, formerly of Oklahoma, who imitating John Dietz, "defender of camel on Dam," held a strong squad of guardsmen of the law at bay, but finally paid with his life. Policemen Harold Mossbrugger and Harry A. Dowell are the two other victims.

Kelly's refusal to pay his rent to the woman that conducts the rooming house at 611 Walnut street, led to the siege.

A machine gun fire hose was used to "smoke" him out the hose spraying the place with ammonia. He defended himself to the last, firing volley after volley from a revolver through the attic window. Policemen Mossbrugger, the most daring of the besiegers had ventured into the house to "hunt Kelly to his lair." In the attic he was shot dead as he entered Kelly himself was found lying on the attic floor with a machine gun bullet in his heart. The ammonia fumes appeared to have little effect on him. Policemen Dowell was struck by one of Kelly's bullets and dropped in the street.

Court Room Crowded As
'Golden Romance,' Is Heard

Fashionably Dressed Men and Women Expect To Hear
Of Domestic Troubles Of J. Stanley Joyce
and Wife "Peggy."

Chicago, June 9.—Fashionably dressed men and women flocked to the courtroom of Judge Joseph Sabath, long before court opened today, in expectation of hearing J. Stanley Joyce, multi-millionaire lumberman tell of his "golden romance" with Peggy Upton Archibald Hopkins Joyce.

Joyce was scheduled to appear in court in answer to a subpoena served by Attorneys for "pretty Peggy" in the suit brought by Joyce to untie the martial knot, which he avers, has cost him a fortune of more than \$1,000,000 in jewels, motor cars, a Miami home and cash.

As a secondary point of interest, Judge Sabath, was expected to give his ruling as to whether Peggy herself would be compelled to come here from New York at this time, to submit to questioning by Joyce's attorneys. The original plans had been to have Peggy absent herself until the hearing on the divorce bill comes up, which will not be before fall. The supreme court proceedings involve Joyce's resistance to Peggy's demand for temporary alimony of \$10,000 a month and \$100,000 for solicitor's fees.

The occasion for Joyce's summons to court was found in his answer to Peggy's petition, in which he declared that instead of being worth \$10,000,000 as she alleges, his personal fortune is a matter of less than \$3,000,000 and that his income will not permit him to pay the huge sums she has demanded.

Joyce declared he already has given Peggy \$1,399,000, in cash, property and jewels and asserted she has at least \$82,000 in the bank. Peggy declares she has only \$24,919 on deposit in a Paris bank.

Counsel for Peggy insists that Joyce bring with him to the court room all his bank books and accounts. They plan to question him regarding his financial standing in the hope of maintaining their claim that he is worth \$10,000,000.

GIRL 13, COLLEGE
MUSIC TEACHER

Oberlin, O., June 9.—Here's the story of Kathleen Kinney.

Thirteen years of age, the daughter of Carl Kinney, a newspaper editor she will next fall take up regular work as an instructor in Oberlin Conservatory. She will instruct a class of junior high pupils, and draw a regular salary for her work.

GRAND COUNCIL OF
U. C. T. BEING HELD

Dayton, O., June 9.—The committee in charge of the Grand Council of Ohio U. C. T., which opened here today expects more than 5,000 here before the close Saturday. Today was taken up by registration and a visit to local bread and biscuit factories where lunch was served. Friday the visitors will go over the conservancy dam projects and hold executive sessions and on Saturday visit local air fields and indulge in a mammoth street parade in the evening. On account of the large attendance of women much of a social nature is arranged, including a big ball in Memorial hall.

BELGIAN CHILDREN
CALLED TO TESTIFY
IN CRIME CASE

Leipzig, June 9.—Fifteen Belgian school children, all under 17 years of age, were summoned to testify when Belgium appeared in the war criminals court today as plaintiff against Max Ramdohr.

Ramdohr, the fifth German to stand trial in the war criminals court, was a secret police officer when the German army occupied Belgium.

Col. F. W. Galbraith, Head
of American Legion Killed

Meets Death as Auto Plunges Over Twenty Foot Embankment Near Indianapolis Early Thursday—
Two Others Hurt.

Indianapolis, Ind., June 9.—Colonel Frederick W. Galbraith, Jr., commander of the American Legion was killed early today; Colonel Milton J. Foreman, of Chicago, commander of the Illinois legion was seriously injured and Henry Ryan, head of the Americanization committee of the American Legion, was cut and bruised, when the automobile in which they were riding toppled over an embankment.

Col. Foreman is believed to have a fractured skull and physicians this morning held out little hope for his recovery.

The three men were returning from the country club in Ryan's car when the machine skidded at a turn ran across a sidewalk, turned a somersault and landed, nose down, at the foot of a steep embankment. All three were thrown clear of the car, but Commander Galbraith died of a fractured skull shortly afterwards.

Ryan told the police he had been driving "pretty fast" because of the desire of Galbraith and Foreman to catch a train, but said he was going only 22 miles an hour when he came to the turn. He said he was not sure whether the car had failed to work or whether he misjudged the turn.

Earlier in the evening, the legion officials had attended a rally staged in the interest of the training camp movement. After the rally Col. Galbraith, Col. Foreman and Ryan went to the country club. They left the club about midnight, starting back to Indianapolis, where Col. Foreman expected to take a train at 1 a. m. for Chicago.

Ryan is said, lost control of the car while crossing the Belt line railroad tracks. It skidded and turned over the edge of a 20 foot crossing embankment.

Col. Galbraith was elected leader of the American Legion at its convention in Cleveland last September. He was born at Watertown, Mass., May 6, 1874. During the war he commanded the 147th infantry. In civilian life, Col. Galbraith was head of the Western Paper Goods Company, of Cincinnati and was a former president of the Cincinnati business men's club and of the Rotary club of that city.

Col. Foreman is a Chicago lawyer, who before the war, was an officer in the Illinois national guard and who served overseas as commander of American troops.

Washington, June 9.—Colonel F. W. Galbraith, Jr., national commander of the American Legion, was one of the few officers of his rank to win the distinguished service cross for heroism in action.

The cross was awarded September 29, 1918. Two years later to the day, he was elected national commander of the legion.

Colonel Galbraith commanded the 147th infantry, Thirty-Seventh (Ohio National Guard) division in the world war. The citation which gave him the coveted D. S. C. set forth that on September 29, 1918, just as the terrific American drive, through the Meuse-Argonne was getting under way, the Germans counter attacked in the section occupied by his outfit.

Going forward resolutely under heavy artillery and machine gun fire, Col. Galbraith established his regimental P. C. in the front lines, reorganized his scattered forces and those of other commands and by staunch resistance, frustrated the German thrust. He was knocked down by a

shell and injured but declined to be evacuated. The incident occurred near Ivory, France.

A new national commander of the American Legion to succeed Galbraith will be elected by the legion's executive committee early next week, it was announced at national headquarters of the organization.

"The American Legion owes it to his memory to carry on vigorously and without cessation, all activities so splendidly started by Commander Galbraith," said Lemuel Bolles, national adjutant, in a statement sent to all legion departments.

GIRL IS ACCUSED
OF GRAVE CRIME
WITH HER MOTHER

Miss Marian McArdle, nineteen-year-old Lakewood, Ohio, girl, who was arrested in New York, charged with complicity in the strange slaying of her stepfather, Daniel G. Kaber wealthy Lakewood publisher.

Miss McArdle's mother, Mrs. E. McArdle Kaber, has been arrested in connection with the crime. Kaber was stabbed to death in his home in Lakewood in July 1919. According to the Cleveland authorities, Mrs. Mary Brickel, mother of Mrs. Kaber, has confessed to a family plot to have Kaber slain and has implicated both daughter and granddaughter. Both maintain their innocence.

Disappointment was expressed today by Secretary of the Interior Fall and Secretary of Commerce Hoover over the failure of coal operators to co-operate with the government in its stabilization plan. They charged that the coal operators, by their attitude of "antagonism" are defeating their own ends.

WOMAN OF MYSTERY
TAKEN TO CLEVELAND
IN MURDER CASE

"Man With a Cap" Will
Also Be Given Hearing
Thursday.

Cleveland, June 9.—"The woman of 'mystery' and the 'man with a cap' will meet today."

At least Prosecutor Edward C. Stanton so says, the two latest to be caught in the dragnet in the Kaber murder mystery for which three women—wife, mother-in-law and step daughter—are under arrest charged with the crime.

County officials and detectives believe that a man taken late yesterday at his home on Mayfield road is "the man with a cap," mentioned by Dan Kaber as the wielder of the stiletto which caused his death. That July morning nearly two years ago.

"The 'woman of mystery' is the way in which is described the person brought to Cleveland from Sandusky in a thrilling ride yesterday morning and held in the county jail here. She was only questioned briefly at that time owing to a sudden attack of illness but officials plan to give her the 'third degree' today, and it is said will confront these two latest suspects with each other.

In connection with the latest arrests Cleveland detectives assert that a plot will be revealed, whereby certain persons made a business of murder for hire. The usual means used, it is declared was poison by the arsenic route, but this did not act with sufficient celerity to suit principals in the Kaber case officials say, so the more certain stiletto was used instead.

Both of the latest suspects are Italians.

New York, June 9.—Weak from loss of blood after she had jabbed a nail file into her wrist with suicidal intent, Mrs. Eva Kaber of Lakewood, O., accused of murder in connection with her husband's death, was carried into court late yesterday and remanded to the Tombs Prison to await extradition to Ohio.

A matron at the Harlem prison, to which Mrs. Kaber was taken after her arrest here Saturday, found blood flowing from Mrs. Kaber's cell shortly after midnight. Investigation showed she had attempted suicide.

Physicians, who pronounced her case not serious treated her during the day. Then she was arraigned in Washington Heights court as a fugitive from justice and transferred to the Tombs.

She was said to have become morose on reading newspaper accounts of her case. A double guard was put over her.

CHIO'S NEW TAX
LEVY ANNOUNCED
AS 1.025 MILLS

Columbus, O., June 9.—Ohio's new state tax levy is 1.025 mills. This is the information just sent out by State Auditor Tracey to county auditors.

Of the taxes to be collected by local taxing officials next December and in June next year, based upon this spring's tax returns, 1.025 mills will go to the state, and will be apportioned as follows: For building funds for state universities .125 of a mill; building fund for institutions under control of the state board of administration .25 of a mill; weak school districts .15 of a mill; state highway fund .5 of a mill.

SUE TO ENJOIN
NEW GAS RATE

Dayton, O., June 9.—Asking common pleas court to order the city officials to return to the gas rate ordinance calling for 34 1/2 cents instead of the 50-55-60 scale, J. F. Briggs and others have filed action demanding a master commissioner to determine how much has been unlawfully collected under the new scale from consumers.

Judge U. S. Martin will hear the motion for a temporary injunction tomorrow. Two previous suits in federal court were thrown out.

LEGISLATION TO
STABILIZE COAL
INDUSTRY SURE

Administration Leaders Decide To Force Through
Laws

A R E D I S A P P O I N T E D
Attitude Of Operators
Against New Plan Is
Regretted.

Washington, June 9.—Administration leaders here today decided to force new legislation, designed to stabilize the coal industry and possibly effect lower prices of coal to consumers.

The hostile attitude of coal operators and threats that they will fight the government, only serve to more closely unite Republican leaders in congress in their purpose to throw the search light of publicity upon some of the inner workings of the coal industry.

Senator Frelinghuysen announced today that he will press his bill, providing for stabilizing the industry through compilation of accurate data on production and distribution districts to a vote in the senate without delay despite the opposition of coal owners.

The senator, supported by leading members of the cabinet and by leading spokesmen in both houses, said that legislation is imperative to "clean up" the coal trade of some of the mysterious elements which now are believed to be contributing to abnormally high prices of coal.

The main principles of the Frelinghuysen bill will not be changed to any future suggestions of the coal industry and any amendments which may be offered in the senate, at the behest of the coal industry, which would weaken the measure will be fought by Frelinghuysen and other leaders.

Disappointment was expressed today by Secretary of the Interior Fall and Secretary of Commerce Hoover over the failure of coal operators to co-operate with the government in its stabilization plan. They charged that the coal operators, by their attitude of "antagonism" are defeating their own ends.

FURTHER RIOTING
STARTS IN ISLES

Dublin, June 9.—While black and tan policemen were raiding the home of J. P. Crowley at Behagallane, near Dunmanway today, Crowley's son Daniel was shot to death.

Castle Cooke, the residence of Colonel Cooke, Collins, in county Cork, was destroyed by fire. A policeman was killed and another was wounded when a police detachment was ambushed near Newry.

YOUNGSTOWN GOLF
PLAYER DEFEATED

Glen Eagles, Scotland, June 9.—Edward "Ted" Ray of Oxley Heath Watford, holder of the American open golf championship, defeated Emmett French of the Youngstown Ohio, country club, two up and one to play in the thousand guinea professional tournament here today. French is captain of the invading American professional team.

Walter Hagen of Oakland Hills country club, Detroit, won his match against Josh Taylor, 3 to 2.

Abe Mitchell of North Foreland, defeated Jack Hutchinson of the Glenview country club, Chicago 1 up.

The result of these matches leaves Hagen the lone hope of the American team.

EMPLOYEES OF FORD
R. R. GET \$6 DAY

Detroit, June 9.—A minimum wage scale of \$6 a day for employees of the Detroit, Toledo and Ironton Railroad will become effective July 1, it was announced by Henry Ford, who recently acquired the road.

On the same date, he added, the road will be operated but six days a week, traffic from 6 p. m., Saturday, to 6 a. m., Monday, being restricted to the minimum required in the movement of milk trains.

Mr. Ford said he was endeavoring to put the railroad on a "factory basis," adding that eight-hour shifts for employees was contemplated.

TO ELECT OFFICERS

Columbus, O., June 9.—An open meeting marked by discussion of various topics dealing with the association's welfare, was held today by members attending the convention of the Ohio Association of Insurance agents here.

At the closing session this afternoon committees will report and officers will be elected.

JUNE 20 IS LAST DAY FOR PAYMENT OF TAXES IS WORD

June 20, is the last day for payment of June taxes, is the gentle reminder of County Treasurer J. E. Sutton.

So far during this tax paying period, the taxes have been unusually slow in coming in, according to Mr. Sutton. Increased taxes and the general business depression, are believed to be causing the seeming hesitation among tax payers.

Last week, the amount of taxes paid represented only ten per cent of the amount paid the same week, a year ago, Deputy Treasurer J. H. McVay will start on his five day trip to villages in the county next Tuesday collecting a day each in Yellow Springs, Cedarville, Jamestown, Bowlersville and Osborn. In each of those places, Mr. McVay will make the bank his headquarters and taxpayers can settle their tax claims there without coming to the court house and going to the bother of mailing money order or check.

WHEN CRAFTY BOB "SUNK THE SHIP"

Charlie White, one of the best known of American ring arbiters, told this one on Bob Fitzsimmons, who was a past master in the gentle art of ring repartee:

"When Fitzsimmons and Sharkey fought at Coney Island some time after their classic at San Francisco, the sailor, who had improved a great deal in the meanwhile rushed at Fitz, swinging both hands hard his left crashing to the point of the jaw and knocking the Australian groggy."

"That was a good one, Tom," Fitz gasped.

"Yes, and here comes another one, I'm not as easy as you think," said Sharkey.

"Tom had the best of the round and kept Fitz on the defense throughout. As they started towards their corners Fitz turned with a wink and a grin and said to Tom:

"Just you wait till you see me sink the ship." The ship was a fine, big, full rigged three master that Sharkey had tattooed on his enormous chest. In the next round, Fitz suddenly exclaimed "Ere now, om 'ere goes one for your face." Instantly Sharkey threw up his guard without thinking of a trick. Bob swung his famous right to the keel of that big blue ship with a thud. The keel was just about on Tom's solar plexus.

Fitz launches torpedo.

"The ship reeled, quivered and slowly sank to the floor with all on board. Tom was a great raller, however, and in a few seconds was up fighting again. Once more Fitz yelled 'Ere's one for your face,' and as Sharkey threw up his guard to ward off the intended swing.

"As he did so Fitz shifted and brought in his right to the solar plexus and I had to count him out. Fitz was standing over the ropes, flinging out his hands to the frenzied throng and grinning from ear to ear. As I turned to slap him on the back he said:

"What I meant to say was 'Ere's one for the ship!'"

HEN LAYS OSTRICH EGG. San Jose, Cal. — Mrs. A. S. Hoce believes that one of her Buff-Orpington hens has a streak of ostrich blood in its veins. The hen laid an egg measuring six inches in circumference and seven inches in length.

CEDAR DAY DRAWS LARGE CROWD TO CEDARVILLE COLLEGE

Between 800 and 1000 people attended the annual celebration of Cedar Day, one of the biggest events in the life of Cedarville College on Wednesday. Although practically the same program is followed each year, the event this year is judged by those who attended the exercises as being more elaborate and beautiful in every way.

The program as previously announced for the affair was followed to the smallest detail and every part of which reflected credit to the school and the instructors.

"America, Yesterday and Today" was the subject of the program, and was presented by the pupils with the depicting of the coming of the Indians to this country until the present day. The closing episode which depicted America today, was worthy of special mention because of the fact that the merits of Cedarville were brought into prominence.

Music for the affair was furnished by the Cedarville High School Orchestra.

This program is part of the closing exercises of the College which started Monday with the presentation of the Senior class play and which will end Friday morning with the presentation of diplomas.

The campus of old Cedarville was converted into an Indian Camp on which was depicted in pageant form the history of the country from the days of the first inhabitants of the country. The opening episode depicted "The Spirit of Indian Day" and was interpreted by Miss Helen Bradfute. This was followed by the second chapter "The Spirit of the Wilderness" by Miss Florence Smith.

Departing from the early days to those which followed shortly after the program next led the audience to the third group, "The Spirit of Patriotism" by Miss Florence Smith assisted by Miss Alice McKibben, Miss Edna Griffith and Miss Josephine Randall.

The exercises were closed Wednesday with the crowning of the May queen, Miss Helen Stewart; the May pole dance, the Cedar Day Oration by Nelson H. Thorne and the granting of athletic letters.

At three o'clock Thursday afternoon the vocal recital of the college was held the following taking part:

Misses Mary St. John, Lucille Cottrell, Ruth Burns, Dorothy Oglesbee, Pauline Setz, Helen Oglesbee, and Carl C. Duncan, with Miss Helen Oglesbee at the piano.

The Baccalaureate sermon was delivered Wednesday night and at 6 o'clock Thursday night the alumni banquet will be staged.

COCKROACHES

EASILY KILLED TODAY

BEAUTY CHATS

THE NEW HAIR TONIC

I have been more than pleased with the letters I have been getting about the new Pilocarpine Hair Tonic I knew its value from personal use, but I was a little afraid that readers living far from large cities would have difficulty in getting this formula filled.

Pilocarpine is sometimes hard to get, and it is probably the most valuable of the drugs used in treating the hair. Its value has been known for some time to chemists and specialists but even now it is not commonly used in treating the hair. That is because beauty culture has been considered only a vanity of foolish women, and because man accepted bald hair as an affliction sent by Providence to be patiently borne as such.

Personally, I do not know any ready-made tonics containing Pilocarpine. This formula of mine was made by a man whose knowledge of the hair and scalp is extraordinary, and its results have justified everything he said of it. The formula, which has been printed before, is:

Pilocarpine Hydrochlorate... 2 grains
Precipitated Sulphur... 30 grains
Cresol (Lily)... 30 grains
Castor Oil... 10 drops
Alcohol (95 per cent)... 4 ounces
Tr. Cantharides... 4 drams
Parina Cologne... 4 drams
Rose Water, to make... 8 ounces

This is good for any type of hair, but particularly good for the woman whose hair is going gray. Pilocarpine acts particularly upon the color cells of the hair, stimulating them to new life. Cantharides is a general stimulant, cresol (Lily) is an antiseptic, castor oil is to prevent dandruff, sulphur is for the same purpose and the rest of the ingredients are necessary for the proper blending of the combination. This can be used every day and should be used two or three times

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved, and the Rheumatic Pain Starts to Leave the System Within Twenty-four Hours.

Every druggist in this country is authorized to say to every rheumatic sufferer that of two bottles of Allenburh, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenburh has been tried and tested for years, and really marvellous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenburh, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenburh decisively conquers this worst of all diseases and he has instructed Sayre & Hemphill to guarantee it in every instance. adv

TONIGHT—Tomorrow Alright

NR Tablets stop sick headaches, relieve bilious attacks, tone and regulate the eliminative organs, make you feel fine.

"Better Than Pills For Liver Ills"

a week with a little stimulating massage.

Miss M.—Two or three drops of benzoin in the rinse water, after cleansing the face, will refine the texture of the skin. An ice rub will also do this, but it will take weeks of persistent care to contract enlarged pores. A few professional treatments would be advisable.

Toodles—Yeast contains vitamins which build up the system and aid digestion, but it is not a fattening food. Two or three cakes are taken each day at different times. They can be dissolved in water or eaten as they are, on crackers or bread. The 15 year old girl should weigh 115 pounds, and the one who is 25 should weigh between 115 and 120 pounds.

E. M. C.—Peroxide of hydrogen used before and after opening these whiteheads, will heal them and also bleach them. This eruption proves that you are not in perfect condition internally, even though you do not sense it in any other way. Test it by clearing the entire digestive tract and see if this tendency does not disappear.

G. T.—Consult the telephone book for the addresses of the beauty parlors.

Anxious—The blackhead powder is made by mixing two ounces of corn starch, one ounce of almond meal and

one ounce of powdered borax. It is used in the place of soap.

Bobby—Your weight should not exceed 125 pounds. Your type is that of a brunette and you will be able to wear any of the rich or bright shades that the brunette, with brown eyes, finds becoming. To make yourself look stouter, wear short skirts, girdles and all lines in trimming, going around the figure, instead of lengthwise.

X. Y. Z.—You are too young to be thinking of men as possible admirers. That is the reason why you are not receiving this attention. A girl of 15 years, who is in the fourth year at high school and can write so creditable a letter, need have no fears at all about her future.

Michael.—The blackhead powder is made by mixing two ounces of corn starch, one ounce of powdered borax and one ounce of almond meal. It is used on a moistened washcloth, the same as soap.

AN ADVERTISEMENT HELPED HER

Mrs. Lucille Mackey, 16 Buena Vista St., Washington, Pa., writes: "Last winter my 3-year-old girl caught a bad cold which left her with a dry cough. It bothered her most at night and she would cough until she vomited. I thought she must have had whooping cough. I saw an advertisement for Foley's Honey and Tar. I tried it and bought two bottles and her cough left her before she finished the second bottle. She had gotten awfully thin but now she is as fat as ever." Sayre & Hemphill. adv

HADN'T THE PEP TO GET UP AND DRESS, HE SAID

But the Old Reliable Builder, Nerv-Worth, Soon Restored His Vigor.

It is useless to give up hope and surrender to depressed feelings when Nerv-Worth will build you up so quickly. Proof that it will do this is found in hundreds of statements from satisfied users, one of which, written by J. E. Wilson, West Poplar St., Sydney, Ohio, says: "I had nervous indigestion, and couldn't sleep at night."

Sold and recommended by Sayre & Hemphill.

I would wake up in the morning so tired and listless that I hardly had enough pep to get on my clothes. I have used Nerv-Worth only two weeks, and I am greatly improved." At this time of year, many people feel depressed and feel the need of a tonic. If the reader feels that way, let him choose Nerv-Worth for his tonic. If, after you have taken your first bottle, you are not pleased, your druggist is authorized to refund your money. Sold by all leading druggists.

Wise investors are buying now for future profit

When others are discouraged and sell stocks at prices below their real value, careful investors begin to buy for future profit.

Most of the stocks listed below are of Ohio Corporations and are largely owned by Ohio people.

They can be bought today at attractive prices.

A Little Of This and A Little of That

The day when Ice Cream may be made in a helter-skelter way is long past. RED WING is the result. There must be Taste, Pleasing Appearance, Fine Flavor, Refreshing Quality and that RED WING smoothness. 'Tis true, some ice cream is still made along old lines as "a little of this and a little of that," but RED WING wins you because it is scientifically correct. The cream is tested and with all ingredients accurately measured and proportioned by chemists. Making RED WING is scientific—not guesswork. The taste tells. Eat as much as you desire. You feel better afterwards. That's the kind of Ice Cream RED WING is! It comes to you packed so that it "keeps" and at the Confectioner's or other dealers' you find it in appetizing condition—solid and satisfying. That's RED WING.

A social time was enjoyed by the guests following the supper.

Miss Katherine Harned returned to Chicago, Illinois, Wednesday night, after a visit of several days with Mr. and Miss Watt Frame and Miss Faye Cavanaugh.

SOCIETY

TO SEND CLOTHING TO U. S. SAILORS

The members of the St. Agnes Guild of the Episcopal Church are planning to take up the old fashion of "sewing socks for sailors." Plans to this effect were made at the regular meeting of the Guild held at the home of Mrs. Anna Horen, on South Miami Avenue, on Wednesday afternoon. Articles completed by the members will be sent to the Seamen's Institute in New York. Several similar organizations in the East are financed by the Episcopal church, and the aid of the women of the church societies has been solicited by the sailor boys in keeping them in warm clothing.

Fifteen women of the Guild were entertained by Mrs. Horen on Wednesday. A report was given at the meeting by Miss Edith Fawcett, a delegate to the recent convention of the Women's Auxiliary, held at Cincinnati.

A refreshment course of ice cream, cake and coffee was served by Mrs. Horen.

IS HOSTESS TO PLAYMATES TUESDAY

Little Miss Helen Benbow, daughter of Mr. and Mrs. J. H. Benbow, was a charming hostess to thirty five of her playmates and classmates at her home on North Galloway street, Tuesday afternoon, from 3:30 to 5:30, on the occasion of her ninth birth anniversary.

Games and contests were enjoyed by the young folks, kodak pictures being taken to add to the many diversions of the afternoon.

Refreshments of ice cream and cake which were carried out in red and white were served, picnic fashion in the yard of the Benbow home.

FIFTH GRADE PUPILS ARE ENTERTAINED

Pupils of the Fifth Grade of Central school had a very enjoyable time at the home of Esther Ford on Main street, Wednesday afternoon and evening. The affair was arranged as a farewell party for Chas. Baber, who leaves with his parents soon to make his home in Marion, Ohio, and also for Miss Marion Schlesinger, who will go to Columbus to live.

Featuring the afternoon's entertainment was a clever play, presented by the pupils of the class. The title of the play was "The Little Colonel's House Party" and those who took part in the play were, Mary Louise Smith, Lois Street, Helen Street, Dorothy Devoe, Esther Ford, Katherine Pittz, Marion Schlesinger, Grace Delph, Miriam Middleton, Robt Shoup, Charles Baber and David Riley.

After the play the children enjoyed a picnic supper on the Ford lawn.

ANNOUNCE MARRIAGE OF THEIR SON.

Mr. and Mrs. Newton Swope of South Monroe Street, are announcing the marriage of their son, Mr. Harley Swope, to Miss Laura Thornton, of Monroe Michigan, which took place on Monday evening.

Mr. and Mrs. Swope are expected to arrive in this city Thursday evening, for a visit with Mr. Swope's parents, where they will make their home until their new home is completed.

ONE HUNDRED AND NINETY EIGHT ASK AID OF RED CROSS

One hundred and ninety-eight people, ex-soldiers, wives and mothers of soldiers, and others claiming benefits from the Greene County Chapter of the Red Cross, applied to the office of that organization in the Court House during the month of May, according to the report of the Secretary, Miss Louise B. Shaffer. Three visits by the secretary and her assistants were made during the month.

Two hundred and fifty nine letters, to those seeking aid, were written by the secretary during the month. Of the cases reported eighteen cases were new to the office.

Three hundred and sixty-three dollars were loaned to the soldiers and their families during the month, while the total financial assistance in May was \$392. The amount of money paid into the office during the month was \$143.50.

The remainder of the report is devoted to twenty-nine grants that were made compensation for four, Liberty Bonds for one boy at \$50 and back pay to the amount of \$781.

"JIMMY" WILL BE SUBJECTED TO A MENTALITY TEST

In the custody of Sheriff Lincoln Funderburg, Jimmy Blangy, ten, who shot and killed his eight year old brother, Virgil, Tuesday morning, and has since been detained at the Sheriff's residence, was taken to Cedarville to attend his brother's funeral exercises Thursday afternoon.

The services were held at 1:30 o'clock standard time at the home of the lad's parents, Mr. and Mrs. Charles Blangy, the Rev. Harriman pastor of the Reformed Presbyterian Church conducting the services. Members of the Sunday school class to which Virgil belonged, were picked to act as pall bearers.

Wednesday, Sheriff Funderburg bought Jimmy a new suit, shoes, stockings and everything, to wear to the funeral, which he has been speaking of as "our funeral" in a way that shows that he does not understand all that it means. He was happy when supplied with the new clothes by the Sheriff and while down town Wednesday, bought a ball and a sack of candy with the money that visitors had given him.

It is now practically assured that Jimmy will be taken to Columbus Friday, where, Dr. H. H. Goddard, alienist, of the Bureau of Juvenile Research, will give him a mental test, to see, whether reports of his mentality being below normal, are true. No action will be taken by local authorities until after the examination.

If the boy is found to have full possession of his mental faculties, he will probably be arraigned Saturday before, Juvenile Judge J. Carl Marshall, on a delinquency charge and if found guilty, may be sent to the Boys' Industrial School at Lancaster. It is found that he is really mentally deficient, he will be consigned to an institution where people so afflicted are taken care of.

FORMER XENIAN NOW IN BALTIMORE

A recent issue of the Baltimore News contains a picture on its society page of Mrs. Wilson Snowden Carter, wife of Dr. Carter, who is associated in practice with Dr. J. Ralph John, of Baltimore, former Xenian, and son of Mr. and Mrs. D. B. John, of this city. Dr. Carter recently graduated from the Palmer School of Chiropractic, at Davenport, Iowa. His wife was formerly Miss Lucille Lautenbach Benson, of Baltimore.

ZIMMERMAN BLACKS WITH ARRESTED AND FINED ON DRY LAW VIOLATION

Justice moved with a swift and sure hand in the case of Mike Melzer, blacksmith at Zimmerman. Thursday morning, who was arrested, charged with illegally manufacturing liquor, and fined, before noon.

Melzer was arrested by Sheriff Lincoln Funderburg and deputies on an affidavit and search warrant sworn out by Prosecuting Attorney J. Kenneth Williamson. When the authorities presented their search warrant Melzer showed them where he kept his liquor.

Part of the illicit booze was found

in the blacksmith shop and part in the cellar of his home. The sheriff and deputies confiscated a copper still, ten gallons of corn whiskey, ten gallons of grape, seven gallons of elderberry and dandelion wine and four cases of home brew.

The liquor confiscated represented the most extensive variety of kinds of wet goods taken since prohibition, most of the "manufacturers" specializing in one line. Melzer entered a plea of guilty to the charge of manufacturing placed against him when arraigned before Magistrate J. E. Jones, and was fined \$500 and costs.

JAPANESE BASEBALL TEAM DEFEATS WILBERFORCE NINE WEDNESDAY 3 TO 2

Taking advantage of every opportunity and hitting the old pill on the nose, when a hit meant a counter, the Waseda University baseball team, from Tokyo, Japan, on a trip through this country, defeated the Wilberforce University nine at Wilberforce Wednesday, 3-2.

The game was a well played exhibition of what we are pleased to call our national pastime, but which the Japs proved they take to, like an argument with China. The masterly pitching of Arita and Taniguchi, the latter a left-handed hurler, and the airtight fielding of the foreigners featured their play, while Davidson's ability with the ash, was the pride and glory of the local fans.

The two pitching gentlemen from the land of the fans with the tea garden names, permitted the colored batsmen but three hits during the entire afternoon pastime. Two of these swats were garnered by the before mentioned Davidson, while Perrin popped into fame with the other safety. Kubata, Oshita and Kiyi, this latter not being the canine mascot, however, helped Wilberforce settle its own little Japanese problem, by smiting the horsehide in flimsy manner.

Strong, for the Wilberforce nine, pitched well enough to deserve a victory. The head of the Japanese batting order picked on him unmercifully, but his average was good, only eight hits being garnered off his delivery. A little bad

luck in the first stanza, cost Wilberforce the game, for the Japs earned their run in the eighth which broke the 2-2 tie and iced the game for them.

The Oriental visitors got the breaks on the get-away. Kubata, first up, was safe on Hull's wild throw to first to catch him, taking second before the spheroid was recovered. He stole third and scored when Oshita singled. Oshita took second when Takamatsu beat Strong's throw to first, went to third on Tanaka's fly and scored when Saunders pegged wildly on Kiyi's grounder. Wilberforce scored first in the fifth, when Davidson tripled and scored on Kiyi's error. Davidson also made the second counter for Wilberforce in the seventh, when Davidson knocked one down the foul line for a circuit swat. The Japs led the game in the eighth. Kubata doubled and Oshita singled. Saunders handling his grounder perfectly but being unable to field it, Takamatsu singled, scoring Kubata, and Oshita was caught at the plate. Strong to Hudson. Tanaka was caught for the second out. Kiyi singled and Matsumoto was safe on a fielders' choice when Nargona flied out, ending the scoring.

DOLLAR DAY WILL BE HELD IN XENIA JUNE 22 IS WORD

Xenia merchants will hold a big general Dollar Day here June 22.

This was the decision reached at a meeting of retail merchants held at the Chamber of Commerce Thursday morning, and a committee composed of Karl Bloom, chairman, Elbert L. Babb and James D. Adair was appointed to arrange plans for the day.

The Dollar Day, according to tentative arrangements, will be staged on the same plan as the first Dollar days held in this city. During recent years, little effort has been put forth in staging the annual bargain feast, but this year the bargain day will be arranged on a large scale.

Merchants will combine in advertising the day, throughout the country. Automobile trips will be arranged, and bills forecasting the day will be spread throughout the towns and villages of the county. No effort will be spared by the merchants, working in co-operation, to see that a large crowd will be attracted to local stores on that day, and it is expected to return the Dollar Day to the standard of popularity and success it enjoyed during its early history in local commercial history.

NO WORD FROM LOST MAN RECEIVED

Loren Carpenter, 38, who has been missing from his home in Shoup's Station since Saturday, is still among the missing, according to Chief of Police M. E. Graham.

No word has yet been received by Chief Graham, from the Chief of Police at Covington, Ky., where the police promised to institute a search for the man, following the receipt of a letter by his wife, written by two strangers and stating that Carpenter had been in an automobile accident and had been taken to a Covington physician.

Carpenter left his home in his automobile which he sold in Beavertown.

ROCK CRUSHES WORKERS

Pittsburgh, Penn., June 9.—One man was killed and three others injured here when a 20-ton boulder rolled over an embankment on the Bigelow boulevard into a party of 35 workmen. Hospital physicians said that the injured men were in a serious condition.

ELECTRICAL INDUSTRY NOW AT ONLY THE CROSSROADS OF DEVELOPMENT.

Extracts from an address by Edward N. Hurley before the United States Chamber of Commerce:

"America today is at the crossroads of electrical development. It is a question whether we are to go forward or stand still. At this very moment, the electrical industry is suffering from arrested development. The industry is waiting the verdict of the American people.

"I have taken the electrical industry as my topic because I believe that there is no question, saving the daily problem of clothing food and shelter, which is so vital to the welfare of the American people. Upon the development of the electrical industry depends extension of the means of communication, further facilities for lighting and household conveniences, the spread of education and the further progress of civilization.

"We like to think of ourselves, here in America, as the pioneers in the science of electricity. We have been the pioneers but the job we started has not been half done. There are still fourteen million homes in the United States which are without electric service and which eventually will have it.

"The fact is that the vast majority of people in the United States are still without the aid of electric current. There are literally millions who still read under smoky oil lamps. There are many industries burning coal and generating their own power which, more economically, could utilize electricity from the electric light and power plant at the same time decreasing the drain upon the nation's coal pile.

"Do it electrically" is a slogan which has been much in use lately but it can not reach its full meaning until a way has been found to provide the enormous amount of money necessary to build additions to old plants and for the construction of new ones which will provide light and power for the homes and factories still in semi-darkness, and lacking in the economical facilities for operation afforded by electric power.

"If the proper encouragement is given the electric light and power industry, the industry will spring forward in the next decade even faster than in the past decade. The result unquestionably will be a lowering of the cost of living and the conservation of national resources which can not fail to benefit the whole population. I think it will be agreed that upon the development and application of electrical energy, more than upon any other one thing, are dependent both the speeding up of production and the conservation of our natural resources.

"The almost unlimited water power of the nation can not be harnessed for the benefit of the public without an enormous capital investment. Already there are 1,450,000 thrifty Americans who have put their savings into the securities of the electric light and power industry, and there are millions more who may be listed as indirect investors through the banks and insurance companies. They have already invested five billion dollars and billions more must be forthcoming if the complete job of the electrical industry is to be done."

"HANDS OFF" INDIVIDUAL BUSINESS ENTERPRISE.

This government, under President Harding, is committed to the policy of more business in government and less government in business. This is the best news that the country could receive. It marks the end of a period of pestiferous bureaucracy in which the usual government supervision was rapidly coming to mean government meddling, dictation and interference to the point of disaster.

The most cheerful word the American business man has heard for years was uttered by the President when, in a recent New York speech, he said:

"I believe that the government should put an end to its pestiferous interference with righteous, legitimate business. I do not believe this government, nor its institutions can be run by mere theorists who never accomplished anything for themselves. The government should cease to be the competitor of business which should be in the hands of private enterprise. On the other hand I believe just as firmly that we ought to apply the same intelligent methods of business in conducting the greatest business in the world."

The policy of greater governmental efficiency and the policy of "hands off" righteous, legitimate business cannot fail to have a good effect on the entire country.

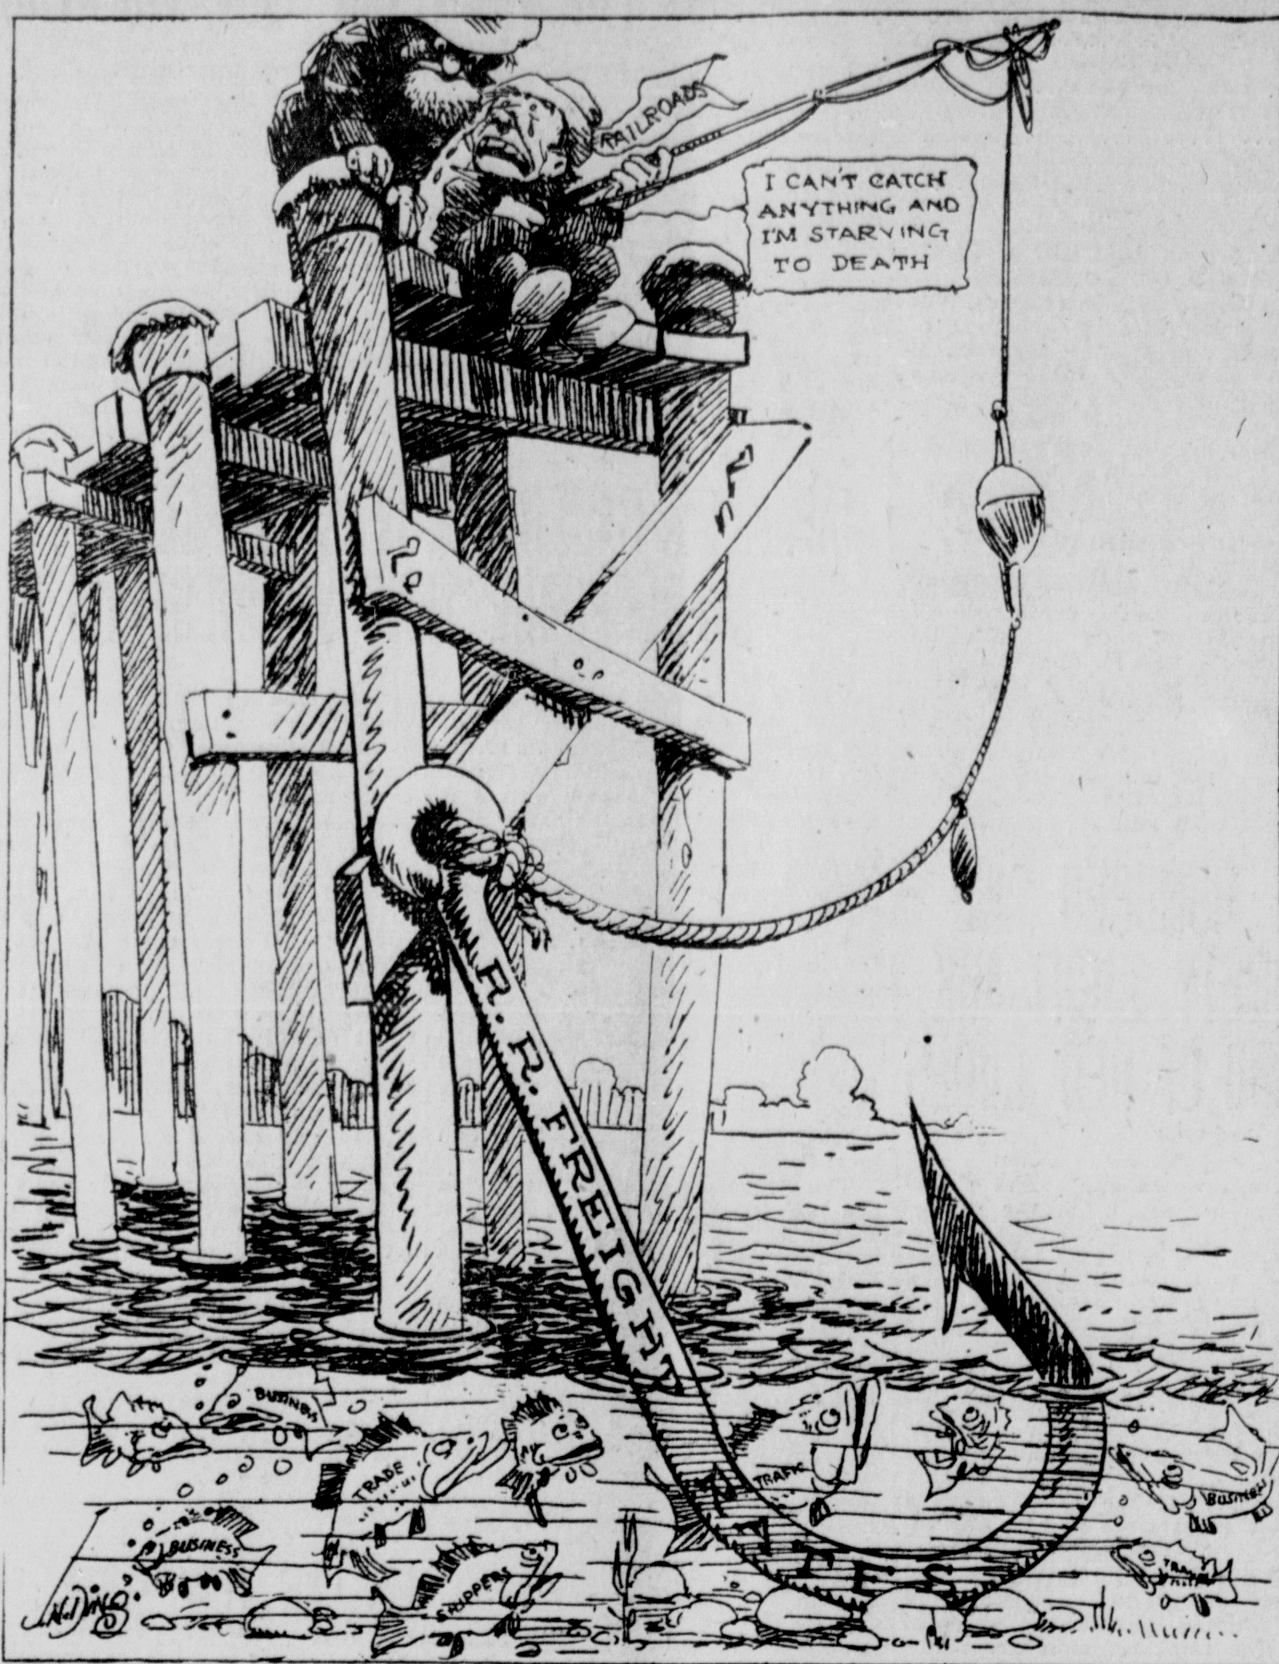

REGARD FOR LAW.

One of the most disheartening things in our country today, is the antagonism to and irreverence for good laws manifested by people who would have it appear that they are good citizens. We see it in the editorial columns and other departments of certain secular newspapers, where the temperance laws and Sabbath laws and other regulations intended to hold immorality in check, and build up the moral, spiritual and physical health and welfare of the people, are derided and the moral and religious leaders of the people are scornfully pointed out with contempt. No one can see these things without fear for the future of the people and the country. This sort of subtle poison is bound to affect harmfully the moral thought and life of the readers. That is why it is printed. What the evil elements of the land could not accomplish by votes, they hope to accomplish by breaking down the moral fibre of the people. The constitutional freedom of the press is one thing. The use of the press for breaking down the constitution and the laws is another very different thing.

WHAT IS SUCCESS?

It's doing your job the best you can
And being just to your fellowman;
It's making money, but holding friends,
And staying true to your aims and ends;
It's figuring how and learning why,
And looking forward and thinking high,
And dreaming a little and doing much;
It's always keeping in closet touch
With what is finest in word and deed;
It's being thorough, yet making speed;
It's struggling on with a will to win,
But taking loss with a cheerful grin;
It's sharing sorrow and work and mirth
And making better this good old earth;
It's serving, striving through strain and stress,
It's doing your noblest—that's Success.

MIGHT TRY PUTTING ON A SMALLER HOOK

1901--Twenty Years Ago--1921

The prosperous condition of Xenia was never more fully illustrated than it was on Saturday afternoon, when the Smith Realty Company, concluded it's sale here. Forty lots in the Galloway addition were sold when little Xenia stood up and bought them in less than three and one half hours.

That a traction line to run from Xenia to Wilmington has been incorporated at Columbus with a capital of \$5,000 comes from unquestionable authority. The capital will be increased to \$500,000, the work is to be done by Cleveland capitalists.

Mr. and Mrs. Clyde Wharton returned from their wedding trip today.

Mr. Harry Smith who is engaged in the study of law at Ann Arbor Michigan has arrived for his summer vacation.

The bans of marriage were announced yesterday at St. Bridg's church for Mr. George McDonald and Miss Lizzie Fahey. The heartiest congratulations will be tendered the young couple over the approaching marriage.

The plans for the Orient Hill school building are now on file at the Central Building, and ready for the inspection of contractors who desire to figure on the work.

No Business Man

AN EDITORIAL ON ADVERTISING

Watch the next person you happen to notice with a new issue of a popular magazine—and the chances are seven to one you will find him running through the advertising pages even before he settles down to read the stories.

The same thing is equally true of the modern newspaper—though in this case it is harder to detect just what a person may be reading on a page.

But people do read—and they do heed—newspaper advertising. Else the big full pages of the Department Stores and others would not pay—and we all know very well that they do pay.

Ask any advertiser about this and get his own answer. Even without it, however, you may just know that it is so—or no business man would be so foolish as to continue to invest his money in such space.

It will pay you—as it will pay anyone—to follow the advertising messages published in the newspapers and the periodicals. Advertising has great power—but it cannot register a success for any product that is not inherently right to start with. Advertising men know this—know it more forcefully all the time—and few, if any, advertising men in this day and age will undertake a campaign on any product that is not right.

If the product is not right to start with, you may know it has been made so before any advertiser will feature it. Hence, advertising is your guarantee that the goods are right. Else they would not be advertised. Advertising costs too much to waste it on goods that will fall down and waste the advertising appropriation.

Get the point, don't you?

Advertising is becoming continually more interesting to read. There is no reading more interesting than which enters into business. There is no reading more interesting than

that carried in some of the best advertising copy of today. Take, for example, the story of the great meat packing organizations, as published in their institutional advertising. Consider the human interest appeal for the game of golf as carried in some of this year's copy on golf clubs. Or the wonderful messages to women in some of the better types of Washing Machine copy of today. Again read one of the food advertisements and are not splendid suggestions they carry for busy housewives who most rightly chafe under being a drudge when there are so many other things worth while these days.

Advertising is a great force for good. It is the force of it that has brought the Washing Machine industry within a space of five short years from a yearly volume of only five million dollars—to a hundred million.

And isn't that worth while for the women of America!

Oh, yes—advertising pays, and it will pay you to read and heed it. You will find it increasingly interesting too.

FLYING FIELD TO HAVE ITS FIRST ANNUAL OUTING

The first annual outing of Wilbur Wright Field, Fairfield will be held June 11, at Tecumseh Park, Medway, Ohio.

Major George E. A. Reinburg has set aside that date as a holiday and committees have completed all plans for the affair, which will be attended by the entire post personnel, including officers, enlisted men and civilian employees, with their friends. A program of athletic events will be staged during the day the special attractions being flying exhibitions, baseball games between teams of the posts, trapshooting, foot races, auto contests for women, a baby show, boxing and wrestling by semi-pro athletes and dancing for which a special orchestra has been secured.

More than 2,000 soldiers and civilians will take part in the retreat formation at 5:30. The famous Wilbur Wright Air Service Band of seventy-five pieces, and the military eighteen-piece "Musical Aces" Banjo Band, will be attractions of the day.

BACCALAUREATE TO BE DELIVERED BY REV. UHL SUNDAY

The Baccalaureate sermon to the graduating class of Central High School will be preached by the Rev. B. B. Uhl, pastor of the First Lutheran Church.

The sermon will be given at the First M. E. Church Sunday evening, June 12, at 7:30 o'clock. Relatives and friends of the graduates are invited to attend the services.

Commencement exercises will be held Tuesday evening, June 14, at the First M. E. Church, at eight o'clock. Roscoe Hillmore Stott, noted Chautauqua and Lyceum course lecturer, will make the commencement address, giving a subject that has won him recognition as a Commencement Day orator. His subject will be "Dying on Third."

Sixty-eight girls and boys, the largest graduating class in the history of Central High School will be present and diplomas by Superintendent C. A. Waltz. Although the names of the honor students have not yet been announced, it is given out that the graduates will be presented their diplomas in the order in which they stand in their studies for the four years' work.

GETTING ALONG GOOD

Women are as great sufferers from kidney and bladder ailments as men. Foley Kidney Pills help rid the blood stream of impurities that cause rheumatic pains, backache, swollen joints and stiff, painful muscles. Mrs. Carey, Box 91, R. F. D. No. 2, Middletown, N. Y., writes: "I had kidney trouble ever since I was a little girl but I am getting along good since I have taken Foley Kidney Pills." They act immediately and help restore the kidneys to healthful activity. Sayre & Hemphill, adv.

Practical Business Talks

TAKE PRIDE IN YOUR PROFESSION.

The pioneer iron master, Andrew Carnegie, set new records in steel production by matching one team against another.

He understood the development of "pride of profession," the thrill that comes through good work, well done.

Carnegie once repeated a conversation between two Glasgow street sweepers, who were discussing a deceased fellow worker.

"Sandy was a gude mon," said the first. "Aye," replied his companion, "but he was a bit careless in sweeping around the corners."

There is solid satisfaction in hundred per cent performance of the humblest tasks. Genius is but an infinite capacity for taking pains. The world's champion ball team of Cleveland was badly beaten on the rough, soggy Brooklyn playing field. On their home grounds, they were invincible. Their playing field was as fast and smooth as a billiard table, due to the untiring efforts of the ground keeper.

When the worlds series winnings were divided, the caretaker received a purse of several thousand dollars, by the unanimous vote of management and players.

Take pride in your profession. Set new and higher standards of workmanship.

You will win an immediate reward in personal satisfaction and ultimate success.

KEEP BOOSTING.

There's no good in roosting like owls on a limb; there's more sense in boosting with ardor and vim. There's no good in viewing all things with dismay; far better be hewing some elm every day. There always are knockers enough in a town; the grouchy old talkers run everything down; they kick if we're growing, they kick if we're not, wet blankets they're throwing till everyone's hot. Unpopular geezers, when'er they appear, these old Ebenezers who knock by the year. They're whiskered and frowsy, they're not up to date, they always are drowsy save when they orate, save when they are kicking because of some tax, and wearily picking the burs from their backs. The custom of knocking, if given full play, is thoroughly shocking, it makes men decay. The habit of looking all chipper and bright, instead of gadzooking and cussing all night, will make you a winner, whatever your trade, oh, tanner and tinner and man with a spade! There's no good in cawing and croaking like crows, and drearily drawing blue prints of your woes; far better be singing some madrigal dope, and cheerily springing a package of hope.

Is Your Meal-time Drink Your Friend?

A good many people who like tea or coffee find that tea and coffee don't like them.

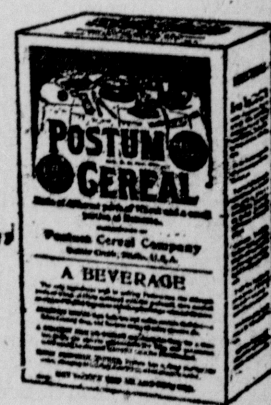

Nervousness, sleeplessness or disturbed digestion is proof.

HENRY CLEWS

Weekly Financial Review

New York, June 8, 1921. The first payment of the German reparations dues has at length been made and is taken as a demonstration of the ability of German financial and industrial organization to carry the strain imposed upon it by the programme of the Allies. Including as an element in this first instalment of 1,000,000,000 gold marks, or in round numbers \$250,000,000 is a sum of about \$80,000,000 in drafts on New York. A part of this transfer consists of American currency and other local obligations. Further progress toward a more normal condition in Germany and gradual approach to a coal strike settlement in Great Britain are elements in making for the adjustment of foreign economic relations to a peaceful basis.

Better Prospects of the Railroads. Domestically the important factor in the week's developments has been the decision of the Railway Labor Board reducing the pay of employees by an average of about 12 per cent. The cut is regarded as very moderate, by railroad managers, although it should effect an economy of about \$400,000,000 per annum. Nevertheless the reduction amounting as it does to only about 50 per cent of the advances granted last summer is insufficient to meet the needs of the railroads even with their present scale of rates. The concession, however, is noteworthy because of its being the first governmental decision against the extravagant claims of labor, and if coupled with a radical agreement of the working agreements should result in material savings for the lines. April returns which are now more and more fully available show that decided economies in railroad expenses have been brought about, although it should be remembered that these savings are in many instances merely the postponement of necessary work. On the 171 Class I railroads April operating income is \$27,500,000 against \$21,200,000 a year ago.

The actual situation can be very much better understood a little later when the readjustment of wages and prices is more nearly complete.

Progress of Business. In spite of a somewhat further fall of prices due to the general evening up of values in different branches of the industrial organization, better progress toward normal business conditions is evident. The principal obstacle now visible in textile and other allied lines is uncertainty of buyers with regard to the future price outlook, many business men being still reluctant to commit themselves far in advance because of their fear that prices may prove unstable. In automobiles the recent cutting of prices has resulted in a large number of buying orders for cars especially of the low cost type, but profits on sales are necessarily reduced to a minimum. It is the prediction of the authorities that the steel and iron trade will increase materially three months from now and that fall trade generally will show considerable expansion. The outlook, therefore, is by no means unfavorable, and if it were not for the fear of further important dividend reduction no doubt buying power in the market would be much larger. Efforts on the part of the Administration to further the development of export financing have been increased during the past week attempts being made to bring about greater activity on the part of the War Finance Corporation and to adapt conditions in the Federal Reserve system more closely to the current needs of business and agriculture. The latest exports returns bringing figures down to the end of April, show a still further recession of our favorable balance of trade, largely due to an increasing volume and value of imported goods especially from European sources.

Financial Improvement. Not only has the Federal Reserve system continued to develop increasing strength, additions of gold as compared with last year's holding at the corresponding date showing an increase of \$448,000,000, but there has been a steady liquidation of paper secured by long term obligations. Governor Harding of the Federal Reserve Board, who has recently made a visit to the agricultural regions of the Southern and Western States, reports a better condition of farm financing. Reduction of acreage of cotton and gradual increase in demand for the staple promises higher prices and conse-

MAKE SCRAPBOOKS FOR SICK SOLDIERS; IN GREAT DEMAND

The Red Cross Sunshine Auxiliary, in charge of a committee consisting of Mrs. Huston Cherry, Chairman, Mrs. W. A. Labron and Mrs. M. A. Hagler, are continuing through the summer with the work of making Sunshine Scrapbooks for sick ex-soldiers.

Within the past few months they have sent 200 such books, to sick soldiers at the Dayton National Military Home, 75 to the District Tuberculosis Hospital, in Springfield, and 70 to what was formerly Washington Hospital, in Xenia, where colored tubercular ex-soldiers are cared for by the government. Twenty of the books were planned especially for children, and given to Miss Helen Evers, Red Cross Public Health Nurse, for distribution among sick children in Xenia City.

Judging from the replies from the patients who read these books they are greatly appreciated. Some boys are recovering from operations, others too ill to sit up, some cannot read, but they are something in every book for each boy to enjoy, and they help to while away the long hours when the boys are hospitalized.

Any one having manuscripts containing interesting pictures, funny stories, or jokes and wish to contribute them for this purpose can leave them at the Red Cross rooms, second floor of the Court House.

quently greater ability to liquidate the obligations incurred by owners of cotton at banks. Recovery of wheat by about 20 per cent of the cash market above low figures show that the agricultural situation with respect to this product is rapidly being stabilized and the effect has been to improve quite materially the position of those banks which have made advances with wheat as security. Nevertheless it is true that there will continue to be large drafts upon bank resources as the season continues, the resources of financial centers being necessarily used to assist institutions in other parts of the country which are in need of funds for raising and marketing the current crop.

Market Review and Outlook

Trading has been upon a relatively small scale with a somewhat pessimistic tone throughout the market, due to continuous dividend reduction and the fact that business recovery has been apparently so much deferred. Some unexpected dividend reductions during the past week as well as others that had been predicted have tended to unsettle market prices, particularly in the steel and automobile groups of the stocks. The main reason why the railroad shares in particular have not responded in a greater de-

gree to the wage announcements is, that the market is in a rut and is disposed therefore, to ignore news events whether favorable or unfavorable. Perhaps the greatest disappointment in connection with the market is in the retrograde movement in the quotations for the motor stocks as it had been freely predicted that the final turn for the better in the automobile industry has taken place. The renewed weakness in steel shares is directly due to the fact that business has fallen off so seriously and that new orders are few. The trading contingent are still arrayed on the bear side but their operations show less aggressiveness which may be accepted as an indication that even these astute gentlemen are disposed to feel their way carefully under present conditions.

SAY TAX DUPLICATE WILL SHOW DECREASE

Urbana, June 9.—The tax duplicate in Fayette county, it is believed by County Auditor Pine, will show a shrinkage of approximately \$2,000,000 over the duplicate of last year, the shrinkage being in personal property valuations.

Auditor Pine will have final figures on the returns within a short time, and the taxing districts so far completed show big losses over last year. For instance Greene township will have a duplicate approximately \$100,000 less than last year, and the First Ward in this city will also show about the same shrinkage.

SHOULD PUTTING BE MADE EASIER?

Periodically there is an outburst of agitation calling for a revision of the conditions governing putting. Here is a subject close to my heart for I doubt if anyone has felt the inconsistencies of this part of golf more than I. I doubt whether any of the suggested changes will be adopted but its worth while to know what is being discussed. And as I write I am thinking of the British Championship matches and wondering what they would think over there of some of these bold suggestions for changing the royal and ancient game.

One writer suggests that the cup should be made larger, and I, too, think that this would aid in the elimination of the disproportionate value placed upon the work of the putter. I think it was Travers that figured out that putting was 45 per cent of the

game. I think it probably is about that proportion, but surely it was not the idea of the old Scotch golfers that such should be the case. Very likely, however, larger cups would permit occasional approach putts to be holed and badly hit shots would go in, and scores in the sixties would be easily possible.

It would eliminate the accuracy of the putting stroke, and give more importance to the second shot—the real master stroke of the game. It would make the play of the best golfers and would take away the really beautiful silence that envelops the putting green at critical moments. The delightful uncertainty of the game—the gallery tension, the defeat of the expert by the inferior player who has developed unexpectedly a wonderful putting streak, and other happenings of like nature would all be gone.

These things, these thrills are all a part of the game, and strongly as I

feel that there is too great a premium on putting. I, for one, prefer to bear the ills we have, and keep the game that has been handed down to us. Let us retain the fascination of the old uncertainties and try our best to triumph over the cruel fates of the putting green. What could we golfers talk about—and golf is a very conversational game when a round is once ended—if the strange, freakish happenings on the putting green were taken from us? The missing of short putts has driven many a man to a condition bordering on insanity, and it has given me many a deep wound, but I must confess that it adds to the interest of the game. The picture of a man measuring a missed two foot putt is full of meaning.

These facts being as they are, let us first try to perfect our putting, for it is a part of the game. It is not the whole thing, however, for golf is a big game played over a long stretch of country with many big masculine strokes and the little performances on the putting green is only a part of it.

For that reason I have thought of the unfair advantage given so frequently to the putter might be remedied by decreasing the size of the greens. If they were made, say, 20 feet square (of course no really square lines are seen on a modern golf course), the second shot, the "cu" and push shots would increase in proportion, and the long, 60-foot, snaky putts from the edge of the green would disappear. This would be calculated to bring about a more nearly fair condition than the enlargement of the cup and would not destroy the ancient ideas of the game.

It would demand extra care of the ground in front of the green, but would cut down the expense of the greens, an expense that has been growing rapidly in proportion to the generosity of their size. I love the old game, just as it was handed down, and I hope some time to be beaten by a golfer who does not win his match on the putting green. Clock golf is interesting, so is croquet, but neither call in play the big strokes of the game.

News of Greene County

ROSS TOWNSHIP

Miss Esther Cummings of Muncie, Ind., is visiting her grandparents Mr. and Mrs. Ed Cummings.

Mr. Wm. Sheeley and son George visited relatives at Cincinnati last Sunday.

Mr. Percy McFarland and family was the weekend guest of friends at New Burlington.

Mr. Taylor Carper went to Van Wert last Thursday to celebrate his birthday with his twin brother Mr. Hall Carper.

Mrs. Blanche Gordon, of Springfield spent Wednesday night with Dorothy Sheely.

Miss Geneva Deck is visiting friends at Franklin this week.

Mr. and Mrs. Reid of Illinois is visiting their son Mr. Ray Reid and family.

SPRING VALLEY

"Everybody-Go-To-Church" will be observed at the Friends' Church next Sunday. It will be an all-day meeting. Everybody is invited to come.

Mrs. Jennie Griffith of Springfield, visited with her friends Mr. and Mrs. Martin L. Bagford the fore part of the week.

Mr. and Mrs. George Vetter are treating their home to a coat of paint. Mr. Will White is doing the work.

Our new house-dress and apron factory has rented the first floor of the Junior Hall and will soon be ready for business at that place.

Mrs. Jennie Peterson and son William Peterson, Mrs. Amos Mendenhall and daughter Miss Mildred and William Scarf of Spring Valley attended Cedar Day at Cedarville College on Wednesday.

Mr. and Mrs. Byron Adams, Mrs. L. R. Anderson, and Mrs. Jennie Peterson of Spring Valley attended the funeral of Mrs. Adams' brother, Mr. Anderson of Xenia Tuesday.

Merrill Scarf's Sunday School Class will picnic at the Soldiers' Home Thursday.

Mr. and Mrs. Butche have moved into Myrtle Reeves house in Ladies' Green.

Mrs. Elizabeth Haines of Dayton has moved back into her property on Walnut street.

Mr. Oliver Griffy is visiting Mr. and Mrs. David Rutan and family of Dayton.

MT. TABOR

The Sunday School will give a lawn fete on the school lawn Thursday evening, June 16. Every one welcome.

Mr. and Mrs. O. O. Smith and family, of Xenia, spent Sunday with Mr. and Mrs. J. R. Jones and family.

Mr. and Mrs. Roscoe Beal and family and Mr. and Mrs. I. L. Smith and family, spent Sunday with Mr. and Mrs. Harry Hurley and family.

Mr. and Mrs. Riley Jones and family were guests Sunday of Mrs. Emma De Voe.

Master Charles Smith, son of Mr. and Mrs. I. L. Smith, is ill, suffering with whooping cough.

Children's Day will be observed at this place Sunday evening, June 19. A cordial welcome to all.

Miss Vera Jones of Paintersville, spent Wednesday with her grandparents, Mr. and Mrs. J. R. Jones and family.

NEW JASPER

Mr. and Mrs. Leon Morgan were guests Sunday of Mr. and Mrs. Otis Baughn.

Mr. and Mrs. Mace Stevens were Sunday dinner guests of Mr. and Mrs. William Jenkins.

Mr. and Mrs. Ode St. John of Monroe, were the guests Sunday afternoon of Mrs. Nettie Sutton.

Mr. and Mrs. Jacob Thomas of Xenia were Sunday guests of Mr. and Mrs. Bert Coons.

Mrs. Ed. Humphry has been seriously ill for the last few days.

Mr. and Mrs. Elias Bullock entertained at Sunday dinner the following guests, Mr. and Mrs. Charles Fudge and daughter, Lelia, and Mr. David Stevens of Selma, Ind.

Children's Day exercises will be held at the Church on June 12 at 10 o'clock.

Mr. and Mrs. Frank McClellan of Dayton were week end guests of Mr. and Mrs. William Fudge.

Mr. and Mrs. Minnie Holten of Cedarville were guests Sunday of Mr. and Mrs. John Shirk.

James LeValley of Dayton, contractor and garage builder, was calling on old friends on Sunday afternoon.

Mr. and Mrs. Amos Peterson and family of Dayton were Sunday dinner guests of Mr. and Mrs. Oscar Hargrave and in the evening were guests of Mr. and Mrs. Ralph Hite.

Samuel Fields of Jamestown was the guest of Mr. and Mrs. Ada Smith for a few days last week.

Mrs. Laura Fields and daughter Elnora and son Alvin of Old Town Run were guests Sunday afternoon of Mr. and Mrs. Alpheus Anderson.

NEW BURLINGTON

Miss Katherine Swonger, of Wilmington, Mrs. Harry Lawson and children, of Xenia, were guests of their sister, Mrs. Stanley Stephens, and family.

Mrs. Daisy Haines and daughters, Sarah and Helen, entertained with a six o'clock dinner Monday evening.

Guests present were, Mrs. Isaac Lytle, Mrs. Orville Compton, Miss Louisa Compton, Mrs. A. H. Harlan, Miss Maude Harlan and Mrs. John Pickin and son, of Dayton.

The members of the M. E. Sabbath School are planning a picnic at Snyder Park, Springfield, Thursday of this week.

Mrs. Lee Coyle continues to improve.

Mrs. Thomas Haydock, who has been ill all winter, is not so well for several days past.

Mr. and Mrs. C. D. Miers and sons, and Mr. and Mrs. Elmer Compton spent Monday at Columbus.

Children's Day services will be held at the Friends church Sunday evening.

William Blair is having his grocery room papered.

Several from here attended the funeral of Noah Craig Wednesday afternoon.

Members from here of the Xenia Lodge of K. of P's attended the Memorial Services at the lodge rooms Monday evening. Rev. B. S. Wright of this place, made the address.

SAYS CARPENTIER WILL STOP DEMPSEY BY KNOCKOUT WAY

BY FRANK SEE.

Editor of Boxing and Leading French Ring Authority.

Paris, June 8.—Carpentier will defeat Dempsey by a knockout and the fight will be over very quickly.

Dempsey is the heavier and seems more powerful than our champion. They say that a well placed blow from his right will send Carpentier down for the count.

But, in the first place, Georges is not easy to hit. Remember that he is the only boxer in the world who has come through many combats without being marked up. There is no doubt in my mind that he will win by a knockout well before the twelfth round and here are my reasons:

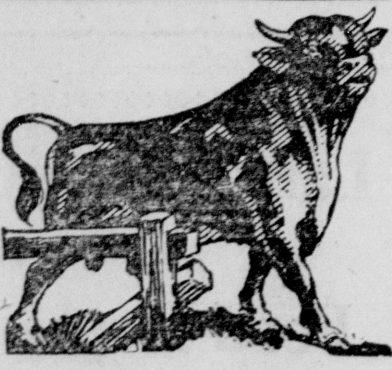

"I have seen every big fight in which Carpentier has participated and I have noticed that his adversaries fall into categories—those who were able to get back on their feet after receiving one blow from his terrible right and those who were not. Beckett, Bombardier, Wells and all the English boxers encountered by our champion belong to the class of fighters who went down and stayed down for the count.

Joe Jeanette, Gunboat Smith and Frank Klaus, are among those who were not put to sleep by Carpentier's first punch. But I am certain they would not have been able to withstand a second smash from Georges' right hand had he delivered it. He did not do it and now that several years have elapsed I can tell the secret of why he failed to knock these men out.

Though Georges has always carried the power for a second punch for a long time his hand was so fragile that he did not want to put it over. It simply hurt him too much. Today his hand is all right. He can double or even triple the terrible right. His hand and wrist are perfectly solid. This is why I am confident he will knock Dempsey out July 2.

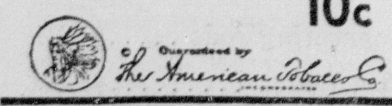

WATCHMEN PENSIONED

Wooster, June 8.—After 20 consecutive years as watchman at the Pennsylvania railroad crossing of the Lincoln highway here, Alonzo Burris, 70, has been pensioned and retired. Not an accident occurred during Burris' term of service. All told, he was employed by the same company for 45 years. He has a son who has been with the same company for 26 years.

WITH THE OHIO SOLONS

C. C. WALTERMIRE, CORRESPONDENT OHIO REPUBLICAN EDITORIAL ASSOCIATION.

Columbus, O., June 8.—The adjournment or recess of the legislature in a manner unprecedented in the history of the state will not prove to be a Republican debacle. It is not evidence of party disintegration and does not mark the end of party dependability or party responsibility in the state. It is not by any means an irreconcilable breach between the executive and legislative branches of the state government.

It was a perfect example of an almost inexcusable lack of team work.

The almost tragic end disclosed the fact that the Governor and the General Assembly were each endeavoring to accomplish the very commendable task of giving to the state a better taxation system.

This was the often proclaimed purpose of the Senate and the state ment of the Governor after issuing his proclamation of adjournment contained a message of hope for this desired and essential legislation.

Considering the zeal of the contending forces and the high nervous tension under which all had been laboring for days and nights there was a noticeable absence of bitterness or feeling. The Senate expressed its conviction of the best manner of securing for the people through the medium of a resolution providing for a recess. There was no criticism, however, of the position of the Governor uttered from the floor of the Senate and neither was the position of members of the House questioned by the Senate membership. Gratifying to party members also was the tone of the Governor's statement which accompanied his proclamation of adjournment.

It was a temperate and dignified statement of his position, which breathed his earnest desire for taxation relief. The only violation of party ethics was indulged in by the two House leaders who apparently took advantage of an opportunity to indulge their penchant for personal publicity at the expense of party unity and harmony.

Traveling by divergent roads but

with purposes altruistic and analogous the Governor and the General Assembly will get a more workable understanding of the best methods of accomplishment and will have the support of the rank and file of the party whether the effort is made in an extraordinary or recessed session of the legislature.

OHIO WOOL GROWERS ONLY ORGANIZATION TO SELL 100 P. C.

The Ohio Sheep and Wool Growers' association, its officers say, was the only large pooling organization in the United States that was able to sell all its 1920 wool.

The storage is completely cleared and the 1921 clip is coming into its warehouses in Columbus.

The 1920 clip of 3,000,000 pounds was sold at an average of slightly more than 35 cents. The association expects 6,000,000 pounds this year.

Growers of several other states are asking the association to act as the agency. It will handle wool this year at a charge of 2 3/4 cents a pound when delivered to the warehouse.

SENSITIVE LAD HANGS SELF

Oakland, Cal., — Harry Finkelstein, thirteen, batted his ball over a neighbor's fence. She scolded him and his father punished him. He retired to the basement of his home and hung himself.

TROUBLED FOR TEN YEARS

If you suffer pains and aches during the day and sleep-disturbing bladder weakness by night, feel tired, nervous and run down, the kidneys and bladder need to be restored to healthy and regular action. J. T. Osburn R. F. D. No. 1, Lucasville, O., writes: "I had kidney trouble for ten years I tried many remedies but they did me no good. I took Foley Kidney Pills and they helped me so much that now I am well." Don't delay Sayre & Hemphill. ady

"HER BELOVED VILLAIN"

IN SOME PARTS HE WOULD HAVE BEEN SHOT

When a certain man had to leave town for a year he put his fiancée in care of his best friend. Imagine how he felt when on his return, he found that he had been double-crossed, and that his best friend had married his best girl! In some parts of this country such a situation would have resulted in a hasty funeral but this was France, and it resulted in one of the funniest farces ever filmed—"HER BELOVED VILLAIN," a sure cure for the grouchyest grouch in the wide world.

East End News

Last Friday evening at 8:15 Lincoln Hi School was the scene of a most impressive farewell banquet tendered the graduating students by the Junior Class. The corridor of the school was very artistically decorated in the Senior class colors of old rose and French gray. Here a very interesting program was rendered by the Junior class during which Miss Mary Francis Myall in her welcome address very vividly set forth the purpose of the occasion. The response was made by Ora Locust in his usual befitting manner.

After the program the gay assembly gathered in the dining room, tastefully arrayed in streamers of pink and white, colors of the Junior class where a delightfully pleasing four course dinner was served. It was during this event that Miss Elnora Garrett made the farewell address paying a worthy tribute and expressing a profound hope of success for the departing school mates.

Those present were Junior and Senior classes, members of the high school faculty and Mrs. Arthur Taylor. The Baccalaureate sermon to the graduating class of East Hi school was held last Sunday evening at the St. John's Church. Dr. P. A. Nichols preached an inspiring sermon and closed by admonishing the graduates along life's activities whose surest reward is success.

The rostrum was occupied by the various pastors of the East End Churches; Supt. Waltz and the members of the school board. A farewell reception was tendered to the graduating class of Lincoln Hi School last Tuesday evening by Prof. and Mrs. Arthur Taylor at their home on East Third Street. The Senior class entire faculty of the East End school; Dr. and Mrs. P. A. Nichols and daughter were guests at the occasion. The evening was enjoyably spent in games. Delicate refreshments of the season were served after which the gay assembly reluctantly departed.

Mrs. Leota Lackey, the wife of Dr. H. M. Lackey, of Chicago is with her parents, Rev. and Mrs. P. A. Nichols, and will remain until after the Wilberforce commencement. Mrs. Lackey and her husband are both graduates of Wilberforce. St. John A. M. E. Church has organized a base ball team with Kenneth Williams as Manager, and Alonzo Ware Umpire. The team will be equipped with suits and caps and will go in for scientific baseball playing.

Mr. John Batts and Alonzo Ware are endeavoring to organize the colored soldiers of the World War into a camp of American Legion. They have been assured of help from the white local camp who have put them into touch with the proper local authorities and it is to be hoped that when the call is made, all those who were enlisted will meet and assist the organization.

Mr. and Mrs. Wesley Crowder of Columbus and Mr. and Mrs. Parker of Birmingham, Ala., were the guests of Mrs. L. E. Lane and Mr. and Mrs. W. E. Evans, Wednesday. Mr. and Mrs. James Ray, East Main Street, have as their guest his mother, Mrs. Maggie Ray of North Carolina and Miss Rosa Carter of Virginia.

The Fashion Show at Zion Baptist Church Thursday evening will be a great treat for all those who avail themselves of the opportunity of attending.

Edward Hubbard of East Church street was among the many who attended the K. of P. exercises at Yellow Springs, Sunday.

CARD OF THANKS

We wish to thank all who in any way assisted in helping to make the funeral service of the late John C. Roan, Corporal 365 infantry company K, overseas an impressive one. Mr. and Mrs. Guss Roan and brothers.

Miss Florence Roney of Danville, Virginia, is visiting her brother, John Roney of the Jamestown pike. Rev. T. D. Scott of Springfield, was the guest of relatives here Wednesday.

The Baccalaureate sermon will be preached to the graduates at Wilberforce University at 10 o'clock Sunday morning in the class will be eight Xenia girls.

Thirty two pupils received certificates from the eighth grade which admits them to the Junior high studies. At the commencement exercises that were held at Zion Baptist Church Wednesday evening, President Gregg of Wilberforce made a splendid address and also presented the certificates. The music was furnished by the class.

The promotion exercises of the eighth grade of East Hi School will be held at 8 o'clock this evening at Zion Baptist Church. Pres. J. A. Gregg, of Wilberforce will deliver the address after which principal Arthur Taylor will present certificates to successful members of the class as evidences of satisfactory completion of the grades and admission to high school.

ARE FOUND GUILTY

Elyria, O., June 9.—Theodore Doitz and Mikolos Matyas, both of Akron, were found guilty of holding up and robbing the Forgarrassy Exchange Bank at Lorain on March 9, of \$950.

REWARD OFFERED

Elyria, O., June 9.—County Commissioners today offered \$50 reward for information leading to the apprehension of C. C. Timberman, former service director at Lorain, who with five Lorain policemen are indicted for accepting liquor bribes.

DEATH CALLS AGED JUDGE

Columbus, Ohio, June 9.—Infirmities due to age caused the death at his home here of Judge Elihu Thompson, formerly of Dayton. He served as Common Pleas Judge of Montgomery County, County Prosecutor and Police Commissioner of Dayton. The body will be taken to Dayton Friday for burial.

SEALED PROPOSALS

Sealed proposals will be received by the Board of Education of the Xenia City School District, Xenia, Greene County, Ohio, at the office of the Clerk and Business Manager, of said Board, until 12 o'clock noon, standard time, SATURDAY, JUNE 18, 1921, for all labor and material required by the plans and specifications for the erection of two high school buildings in Xenia, Greene County, Ohio, one designated as High School Building and one designated as East High School Building.

Said plans and specifications are on file as follows:

At the office of the Clerk and Business Manager for the Board of Education, Xenia, Ohio.

At the office of Albert Pretzinger and Edw. P. Musselman, Architects, Dayton, Ohio.

At the Builders Exchange, Columbus, Ohio.

At the Builders Exchange, Springfield, Ohio.

At the Builders Exchange, Cincinnati, Ohio.

At the Builders Exchange, Dayton, Ohio.

All proposals must be made according to the laws of Ohio, revised statutes which require that each item for work, labor and materials must be bid upon separately.

Proposals must be accompanied by a written guarantee of a surety Co. of approved standing, or at least two responsible disinterested free holders of Greene County, Ohio, as sureties, certified by the County Auditor, or a check of a solvent bank in an amount of the proposed sum.

The bidder who enters into and secures the faithful performance of the contract as required by said Board of Education.

All bonds must be satisfactory to the Board of Education.

Each proposal shall contain the name of every person interested in the same. Foreign corporations submitting proposals must comply with the law for doing business within the state of Ohio, if their proposal for any part thereof is accepted.

The Board of Education reserves the right to reject any or all proposals or to accept any proposal for both labor and aggregate or to waive any or all of the proposals, if in the interest of the board and not in violation of law.

Proposals must be sealed in sealed envelopes, endorsed by the name of the bidder and marked "Proposal for high school building, Xenia, Ohio," designated which building and the item of work to be done.

By order of the Board of Education. Clerk and Business Manager, J. W. SANTMYER, President. 5-1926; 6-2-16.

Easy For Thin People to Put on Flesh, Gain Weight

It's such an easy matter nowadays for thin, weak, scrawny people to put on flesh, healthy, solid flesh and become plump and graceful that one often wonders why there are still so many people who seem to prefer to be "all skin and bone," ungainly and unpleasant to look upon.

Physicians have long known that whoever could discover a remedy that would cause the food to be turned into the stomach to turn into good, rich, flesh-making blood instead of going to waste, would also discover how to put healthy muscular flesh onto thin undernourished people and this has now been accomplished.

If you are thin, under developed, nervous, weak, or lack vigor and vitality, you can secure at any good pharmacy a treatise cost a ten days' treatment of combination of flesh producing elements that is guaranteed to put good, solid, lasting flesh on your body and to make you strong, healthy and vigorous or money back.

Physicians who have watched the results of the Evans' Triple Phosphates treatment are astonished at its rapid action—often in a month five to ten pounds of desirable weight is gained. Sohn's Drug Store and Seyer & Hempel have agreed to supply readers of this paper with Evans' Triple Phosphates and to guarantee it to do just what is claimed for it or money returned.—Adv.

Gas Buggies—It depends on where you sit how the picture looks

Is the bathroom getting a bit dingy? Decorative Enamel (Du Pont Product) gives a smooth, lustrous finish like white tile.

Screens are expensive and rust easily. Du Pont Wire Screen Paint will make them bright and attractive and keep them from rusting.

The stove pipe and range will look better and last longer if painted every year with Du Pont Stove Enamel—Du Pont Colored Enamel for the radiators.

How about the automobile? Du Pont Auto Finish will make it look like new at little expense.

Remember, a well-painted house is worth more in the market. Du Pont Prepared Paint is the finest on the market.

A mighty good place for some of that extra money you made last year.

BEST place in the world to put some of it is right on—or in—your house. Rot and rust are taking their toll every year from your property. Protect the surface and wood or metal will last indefinitely.

We have a complete line of Du Pont Paints, Varnishes, Stains and Enamels to protect and beautify any portion of your home or place of business.

Bring your painting problems to us. We will be glad to advise you.

Paint is now at Rock-Bottom prices

DEPRECIATION ON PAST TAX RETURNS CANNOT BE ALTERED

Columbus, June 8.—Facing the next quarterly payment of income tax with knowledge that Government agents are abroad in the land seeking by every means known to them to raise the already burdensome tax, there is a ray of comfort in the information just made public that depreciation accounts in past returns of corporations cannot be altered unless there is manifest evidence of negligence.

This breath of relief comes in the shape of an interpretation of a ruling from the Internal Revenue Office for corporation tax returns. The opinion is handed down by the Committee on Appeals and Review and is accepted by the Income Tax Unit for its guidance. The decision which is of particular interest to corporations and affects not only stockholders and boards of directors of corporations but indirectly affects the banks and employees of the corporations, who may be forced into bankruptcy by charging off depreciation on returns made in the past, is as follows:

"It is the judgment of the Committee that there is no warrant for reducing earned surplus because of alleged failure to charge off sufficient depreciation in the past, unless the depreciable assets of the corporation are valued on its books at the beginning of the taxable year at an amount in excess of their actual value at that time. This is particularly true where corporation in prior years earned positive income from which larger deductions for depreciation might have been taken, if in the opinion of the officers and directors of the corporation such larger charges had been justified."

"This means," said W. E. Langdon, certified public accountant and industrial engineer, "that the decisions made by the manager of corporations at the time, with all the facts before them more reliable than those made years afterwards when an inspector has not all the information before him."

"It means further that income tax inspectors may not always whittle the corporation's invested capital by charging up additional depreciation for past years, thus decreasing the company's investment and thereby reducing its exemption and increasing the taxes. This opinion, moreover, is from the highest authority in the administration of the income tax and cannot be changed except by a ruling of the Supreme Court of the United States."

"Of the 98 per cent corporation tax returns which are considered erroneous, three fourths are due to the assessment on depreciation, 30 per cent of these additional assessments can be combated."

CONTEMPT OF COURT CASE BROUGHT UP FOR SECOND TIME

Urbana, June 9.—For the second time within a month, Anna and William Reams, owners of a portion of the Mt. Tabor cave, have defied the order of Judge Middleton of common pleas court and face contempt proceedings brought by Albert H. Smith, the Dayton man who owns the rest of the aforesaid cave. A citation of contempt was filed by Deaton, Bodey & Bodey, representing Smith, Tuesday after Raymond H. Smith, county surveyor, came back from the cave and announced that his assistants were refused admission to the cave to make the survey as ordered by court and that even he, the surveyor, was warned that to step one inch over the bounds would subject him to arrest for trespass.

Deputy Sheriff Todd was immediately dispatched to Mt. Tabor to bring the Reams into court.

MAYOR'S JOB PAYS ONLY 50 DOLLARS; APPLICANT WANTED

Mechanicsburg, June 9.—Politics in Mechanicsburg is being agitated very little. There is not enough interest to secure a municipal ticket in either party, according to advices reaching Urbana Tuesday.

Mayor J. S. Neer, Democrat, says he will not be a candidate for re-election and that he does not want the job under any circumstances. The job pays only \$50 a year and such bait isn't strong enough to attract others, as a result no one wants the job.

According to public sentiment Neer has made a very good mayor and he will be pressed to run for re-election, it is said.

The only predictions being made regarding the village council, is that the next council will be solidly Republican.

THE SKY FOR A TENT

Oakland, Cal. — Manuel Neves, wife and eight children arrived here from the Hawaiian Islands to make their home. Manuel bought a vacant lot. Asked about a house, he replied blankly: "Why a house? We didn't need one in Hawaii."

DARLING BABY BRIGHTENS HOME

Children's Laughter a Pleasing Sound

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We had six children die almost at birth. From one hour to nineteen days is all they have lived. Before my next one was born I took a dozen bottles of your Vegetable Compound, and I can say that it is the greatest medicine on earth, for this baby is now four months old, and a healthier baby you would not want. I am sending you a picture of her. Everybody says 'That is a very healthy looking baby.' You have my consent to show these few lines to anybody."—Mrs. C. W. BENZ, 131 3rd Avenue, Altoona, Pa.

Mrs. Janssen's experience of interest to childless wives.

Millston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are fond of children, and for a considerable time after we were married I feared I would not have any. I began taking Lydia E. Pinkham's Vegetable Compound, and it strengthened me so I now have a nice, strong, healthy baby girl. I suffered very little at childbirth, and I give all the credit to your medicine, and shall always recommend it highly."—Mrs. H. H. JANSEN, Millston, Wis.

Mrs. Held of Marinette, Wis., adds her testimonial for Lydia E. Pinkham's Vegetable Compound. She says:

Marinette, Wis.—"I was in a nervous condition and very irregular. My doctor advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. It overcame my weakness so that I now have a healthy baby girl after having been married nine years. I am glad to recommend your medicine, and you may use my letter as a testimonial."—Mrs. H. B. HELD, 330 Jefferson St., Marinette, Wis.

There are many, many such homes that were once childless, and are now blessed with healthy, happy children because Lydia E. Pinkham's Vegetable Compound has restored the mother to a strong and healthy condition, as it lacks, displacements, weakness and nervousness.

Women everywhere should remember that most of the common ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative. It can be taken with perfect safety and often prevents serious troubles.

Therefore if you know of any woman who is suffering and has been unable to secure relief and is regretfully looking forward to a childless old age, ask her to try Lydia E. Pinkham's Vegetable Compound, as it has brought health and happiness into so many homes once darkened by illness and despair.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Efficient Housekeeping

BY Laura A. Kirkman

Exterminating Household Pests.

In the summertime, more than in the cold months, the housekeeper must be on guard constantly against household pests. The following means of exterminating may prove of use to her.

Flies: We all realize, today, that flies are one of our most deadly enemies. They carry disease germs on their feet, causing typhoid fever and other infections. The house should be well screened against them, and oil of lavender may be sprinkled about the outside doors to drive away the few that seek to gain entrance. A teaspoon of formaldehyde in a cup of water placed in saucers around the house will kill any that are already inside. Flypapers are also good.

Mosquitoes: These pests have caused much disease. Malaria, elephantiasis, blood poisoning and yellow fever have been traced directly to them. Screen the porch if possible, otherwise apply to the hands, ankles and face (sparingly) a mixture of oil of cedar and citronella in equal quantities; or spray this mixture on the skin by means of an atomizer. And try to find their breeding places about the home.

Mosquitoes breed in water—sometimes in a rain barrel, sometimes in ponds and pools, sometimes in tin cans with water in them. Drain, or fill in with dirt, such bodies of water when possible; or pour a layer of kerosene on top the water during the warm weather; still another way is to put fish into the water, which will eat the mosquitoes.

Cockroaches: Dissolve a small lump of alum in a quart of hot water and pour this into their hiding places. A little carbolic acid (a deadly poison) mixed with a quantity of hot water will also kill them although several applications may be necessary to get rid of them. Have your druggist make the preparation for you.

Ants: Place the legs of the refrigerator, kitchen table and kitchen cabinet in saucers or pans containing a little water and pour kerosene oil on top the water. Alum and carbolic solutions may be used for ants as well as for roaches. Washing pantry shelves in strong alum water will frequently drive them away.

Mice: These pests are hosts for fleas. Their holes should be filled up with plaster of Paris. Sometimes

SCHOOL TROUBLES AT SOUTH SOLON

The South Solon Advance announces troubles in the schools of that village, with Prof. Smith failing to give diplomas to a number of students when the diplomas were supposed to be passed out.

According to the Advance all pupils were handed rolls supposed to be diplomas, and when opened they found only blank sheets of paper, with the result that the affair has gone before the school board for settlement.

BY GEORGE M'MANUS

The Revolt of Vera Sanderson

By JANE PHELPS.

KEITH FAILS TO MEET VERA

CHAPTER 63

The moment I reached New York I felt depressed, and with no particular reason. I had been quite happy, even in my sorrow, to know that I should soon be with Keith, and this feeling of oppression worried me. Had something happened to him? But no, the very day I left I had heard from him, just a short note saying he would meet me.

When the train pulled in at the station I was almost the first one out. As I hurriedly followed the porter carrying my bag through the gate I looked anxiously expectantly about. But I did not see Keith. I tried to be sensible, although my heart was pounding with something very like fear. He might have been detained in some way; business or the heavy traffic might have delayed him.

I tipped the porter, and stood quietly waiting beside my bag. The train emptied. Gradually the crowd about the gate dispersed. In the great station that a moment before seemed filled with surging humanity, I was practically alone.

A moment longer I waited, then picking up my bag I found my way to the telephone.

In reply to my questions (I had called his office) the telephone operator said:

"Mr. Sanderson has not been in today."

"This is Mrs. Sanderson," I told her. "He isn't ill, is he?"

"No, Mrs. Sanderson. He telephoned this morning that he would be late, that his sister was ill."

"Have you heard again?" I asked.

"No, Not since morning."

"Thank you," I said and my hand trembled as I replaced the receiver. He had known I was coming, had written he would meet me, then after I had been away two long weeks he let me come without keeping his word. I didn't believe Margaret was ill, and in my disappointment I said so aloud. Then my common sense told me to wait and see, that Keith had been very kind to me and to my family—it wasn't fair to judge him until I knew. But in spite of my good resolutions I could not keep my mind from dwelling upon the worst side—the fact of his failure to meet me.

All the way down to the country I kept thinking: Why didn't he leave word at the office for me? He might have known I would call him. And why couldn't he have left Margaret with Mrs. De Lisle long enough to meet me? Tears came into my eyes but I determinedly winked them back. Keith hated tears. I wouldn't let him see me with red eyes. He would be at the station surely.

But he wasn't! There was no one there to meet me. I left my check with the baggage master, then hurried up the cool shady street to the house. It was a very warm day, and in spite of the shade I was perspiring because of my haste.

On the piazza sat Margaret and Keith, talking. Margaret in a big chair, dressed in a light house gown, Keith jumped up and kissed me, then said:

"The train was a little ahead of time. I intended to be at the station." He looked at his watch, while Margaret said languidly:

"How-de-do, Vera? Was it hot on the train?"

I made no answer. I was looking at Keith.

"Either it was ahead of time or my watch is slow. You got my wire didn't you, dear?" he took my bag.

"What wire?" Something made me look at Margaret. A slow flush crept over her face at my keen regard.

"I sent you a wire saying I would not meet you in town, for you to come right down."

"I got no such wire, and I was terribly disappointed. I waited the longest time in the station. Then I telephoned your office. They said you had called up that you would not be in, so I came on down."

"Where do suppose that telegram went? You sent it to Vera as I asked you to, didn't you, Margaret?"

"Oh, Keith! You must not blame me. I meant to send it right away, but Alice called me and I forgot all about it until half an hour ago when I saw it lying on my desk. I have been feeling so ill, it is no wonder
